

# *Prevent the theft of third-row seats*

If you own an SUV, the Cerritos Sheriff's Station/Community Safety Center recommends that you use some type of cable lock to secure your vehicle's third-row seats to keep them from being stolen. Theft of third-row seats from SUVs has increased dramatically, and with expensive replacement costs, protecting your property can save you time and money.

*Cable locks like the one pictured above can be purchased at hardware stores and many on-line retailers, and are an inexpensive way to protect your property.*
